- **Packaged Plant Rooms**
- **Service and Maintenance**
- **24 Hour Callout Service**
- **Repairs**

**WHEN STOPPING
IS NOT AN OPTION
WE HELP KEEP
EVERYTHING GOING**

COMMERCIAL HEATING

Our highly skilled and dedicated engineering team design, install, service and maintain commercial heating systems throughout the UK and Channel Islands.

Primarily operating in business-critical environments, Cedar Green understands that down time is not an option. Our clients have come to rely on the first class 24/7 service provided by our team to keep their business running.

We are renowned for our ability to undertake complete refurbishment packages whilst providing continued heating and hot water services to the building users. This minimises or eliminates disruption completely and affords us preferred partner relationships with our clients.

TEMPORARY BOILERS

Our Temporary Boiler Rooms can supply our clients with continuous heating and/or hot water within 4 hours of an order being placed.

Our highly efficient and responsive service is frequently utilised by hotels, hospitals, healthcare providers, local authorities, building contractors, universities and schools.

Whether for planned works or emergency situations, Cedar Green Temporary Boiler Rooms can offer a 24hour/365days a year service tailored to fulfil individual client requirements or those stipulated within service agreements.

We offer a full (no obligation) site survey by one of our experienced engineers with advice on selecting the optimum hire system to provide the most cost effective and energy efficient solution.

- **Heating and Hot Water**
- **Gas, LPG, Oil or Electric**
- **100kW to 2mW**
- **Discounted rates for long term hire agreements**

**OUR FLEET OF TEMPORARY
BOILERS ARE AVAILABLE 24
HOURS A DAY ALL YEAR**

WHEN INTERNAL SPACE IS LIMITED THINK OUTSIDE THE BOX WITH A CEDAR GREEN PACKAGED PLANT ROOM

- **Bespoke design**
- **Quick and easy to install**
- **Available throughout the UK and Channel Islands**
- **After sales service**
- **Fabricated in a controlled factory environment**

PACKAGED PLANT ROOMS

At Cedar Green we specialise in the design, manufacture and installation of packaged plant rooms.

Prefabricated off site our bespoke packaged plant rooms are quickly installed externally allowing for rapid project timescales.

All packaged plant rooms are constructed within a 1 hour fire rated GRP enclosure complete with a galvanized steel floor.

Our plant rooms are readily available in any standard RAL colour and come complete with louvered ventilation.

WHY CHOOSE CEDAR GREEN?

- 24/7, 365 days a year emergency callout service
- Discounted annual service rates
- Discounted rates on spares and parts
- Significant savings on temporary boiler hire
- Technical support helpline available 24/7

SERVICE & MAINTENANCE

Cedar Green offer comprehensive service and maintenance contracts nationwide, including the Channel Islands. This provides our clients with a 24/7 emergency callout service available 365 days a year ensuring total peace of mind.

Regular routine servicing prolongs the life of mechanical equipment, reduces energy consumption and helps preempt and prevent breakdowns.
